**Join us for SCMA's inaugural webinar which is suitable for both legal and non-legal professionals who are present or future users of arbitration!** The webinar will touch on the following points:

- What are virtual arbitration hearings and how do they actually work in practice and fit into the SCMA Arbitration Process?
- What are the key benefits and challenges that users get and face from virtual arbitration hearings? Is this the "new normal"?
- Once agreed by parties, what does this actually entail and how does the infrastructure to hold these virtual hearings actually function?

We have a fascinating discussion coming up, with practical takeaways for you to learn and use, as more and more hearings go "virtual".
